The criteria identified by the senior management as relevant for demonstrating compliance with the Guidance are the activities described within the Refiner’s Compliance Report.

Ensuring the independence and quality of the auditor

During performance of the engagement we observed the requirements of independence and quality assurance set out in legal provisions and professional pronouncements, in particular the professional code for German Public Auditors and Chartered Accountants (in Germany) and the quality assurance standard of the German Institute of Public Auditors (Institut der Wirtschaftsprüfer, IDW) regarding quality assurance requirements in audit practice (IDW QS 1).

Our responsibilities

Our responsibility is to carry out a Reasonable Assurance Engagement and to express an independent conclusion based on the work performed and evidence obtained, as to whether the Refiner’s Compliance Report, in all material respects, describes fairly the activities undertaken during the year to demonstrate that compliance is in accordance with the requirements of the LPPM Responsible Platinum/Palladium Guidance.

We performed our work in accordance with International Standard on Assurance Engagements (ISAE) 3000 (revised) – ‘Assurance Engagements other than Audits or Reviews of Historical Financial Information’ (IAASB) and the guidance set out in the LPPM Responsible Sourcing Programme - Third
Party Audit Guidance for ISAE 3000 Auditors ('the Audit Guidance') as a Reasonable Assurance Engagement. ISAE 3000 requires that we plan and perform the Assurance Engagement to obtain reasonable assurance about whether the Refiner’s Compliance Report is free from material misstatement.

An Assurance Engagement on the Refiner’s Compliance Report involves performing procedures to obtain sufficient appropriate evidence to give reasonable assurance over the Refiner’s Compliance Report. The procedures selected depend on our judgment. These procedures included:

- Inquiries of management to gain an understanding of C. Hafner GmbH + Co. KG’s policies and procedures for risk management;
- Interviews with senior management and relevant staff responsible for the preparation of the Refiner’s Compliance Report;
- Interviews with relevant staff responsible for providing the information in the Refiner’s Compliance Report;
